

**GILSON®**

## MACROMAN

### Precise Pipetting with Optimal Control

The motorised MACROMAN Pipette Controller, along with Gilson's brand new range of serological pipettes are perfect for transferring and dispensing liquids quickly, precisely and conveniently without contamination. Now with 25% off.

**25% OFF**

#### MACROMAN CONTROLLER:

- Ergonomic handle prevents hand fatigue.
- Speed adjustable for optimal precision and control.

#### SEROLOGICAL PIPETTES:

- Sterile, non-pyrogenic and certified free of detectable RNase/DNase.
- Polyester fibre plug provides a high level of protection against over-pipetting and contamination by liquids and aerosols.
- Compatible for use with other pipette controllers.
